

## Deviance: Fill-In Classroom Activity

1. Trez Paz Ing and her friends always cut through Mr. Smith's farm to get to school. He doesn't seem to mind, but when Trez tramples one of his prized watermelons he decides to call the police. According to Becker's chapter (3) on labeling theory, Mr. Smith's response is most closely related to a variation in \_\_\_\_\_.

**Explain:** \_\_\_\_\_  
\_\_\_\_\_

2. Holly Hassup Enis recently confided in her best friend, Lou Stung, that she is a hermaphrodite. Lou promptly informed the entire school of Holly's "teenie weenie." According to lecture, Holly's deviance is \_\_\_\_\_.

**Explain:** \_\_\_\_\_  
\_\_\_\_\_

3. Abit O'Fasquare wanted to learn more about the amount of drug use on campus, so he wrote a questionnaire asking students how often they used methylenedioxymethamphetamine, lysergic acid diethylamide, or delta-9-tetrahydrocannabinol. His findings showed that no students have ever tried, or even heard of any of these common drugs. According to Laumann et al.'s (Ch. 13) sex survey, the problem with his survey lay in his \_\_\_\_\_.

**Explain:** \_\_\_\_\_  
\_\_\_\_\_

4. Ki Sup is trying to get a raise from his manager at Fantastic Food, Har Dass. Ki complies with all of Har's requests and compliments Har whenever possible. Ki stays after hours just to prove that he is a good worker. After work, the other employees get together and talk negatively about how Ki is making them look bad. According to Heckert and Heckert's (ch.2) typology of types and reactions of deviance, Ki Sup's behavior would fall into the category of \_\_\_\_\_.

**Explain:** \_\_\_\_\_  
\_\_\_\_\_
