

SOCY 1004 Deviance, fall 2008

TA: Matt Bear

Unedited, unabridged written comments from FCQ's (instructor and course feedback forms)

"This class was not at all what I expected, but it was very interesting and I enjoyed it a tone!!! I believe Matt is the reason I have done so well in this course so far."

"Great job. Tests are goofy though at times, often the questions are vague/not enough."

"I thought this recitation was great. Your love for the knowledge of sociology definitely translated over in your teaching. The reading lists were clearly explained, and you always answered questions. Thanks!"

"I dont (sic) really have any comments to give except Keep up the good work! You are an awesome instructor and you are very helpful and easy to get a hold of."

"Matt is awesome and so is deviance"

"The T.A.s and the ATAs really had a good idea of what they were teaching This course has so much to know and so many ways of interpreting the information and I feel like from the recitation outlines to the exams, students were really tested properly on all the information. Sometimes on the exam though, I felt that I did understand the idea of the article or chapter but the actual essay question was confusing me, keeping me from writing (sic) what I should have."

"I dont (sic) have any complaints. I appreciate that Matt was willing to work with me when situations came up that precluded me from meeting due dates. Its (sic) nice to see an instructor who will look at a situation on an individual basis and make a judgment rather than simply applying broad, non adaptable (sic) policy."

"I really enjoyed the lab, the only thing would be to slow down a little more, there is a lot of information to write down and it is hard to get it all when the teaching is fast."

"Matt Bear is a great guy. He really made going to class easy because he was there to help you with anything you could possibly need. He really has a passion for Deviance and it shows because he is a great teacher and made Deviance my favorite class to take this semester."

"You were great! Fun to be around and listen to, enjoyable classes and content. Thanks."

"He did a good job in delivering the material and teaching us. Easy to talk to if I had any questions and helped me out any way possible."

"Great class. Really interested me and is so relevant to the current times."

"Great course, matt does an awesome job."

"I thought this was a great course. My TA Matt Bear did a great job as a TA and actually made learning about deviance interesting. The only criticism for this course I have is that the test material should be covered more in lectures and recitations."

I thought that the material in this class was very interesting and I thought that the instructor did a great job at explaining the information and making sure we understood the material.
